INTRODUCTION

Bonneville’s Secure Website is a document management and control application for use in BPA Proceedings. Official Parties, the Hearing Officer, and the Rate Hearing Clerk use the secure area of the Secure Website to submit and access all documents, including Exhibits, Data Requests, Data Responses, Motions, and Orders. Generally, the public has access to view all filed documents except Data Requests and Responses and certain other confidential or proprietary information.

Content and format requirements for filings submitted via the Secure Website are contained in Bonneville’s Rules of Procedure. Please note that special procedural rules adopted by the Hearing Officer of a particular proceeding may contain additional filing requirements.

This document provides instructions for use of the Secure Website by Official Parties to a Bonneville proceeding.
APPLICATION BASICS

System Functionality

The Secure Website allows representatives of Official Parties to:

- Enter and submit Filings on behalf of their Party.
- Enter and send requests to another Party for information on Filings submitted by that Party.
- Respond to requests directed to their Party.
- View all Filings, Data Requests, Data Responses, and Orders.
- Receive email notification regarding the submission of Filings, Data Requests, Data Responses, and Orders.
- Receive communications from the Hearing Officer.
- Manage their user settings.

Contacts

Some parts of the Secure Website reference the Rate Clerk. That function has been split into the Hearing Clerk, who assists the Hearing Officer, and the Rate Hearing Coordinator, who handles access to the Secure Website.

If you encounter a problem accessing the system or have log in/password problems, please contact the Rate Hearing Coordinator, whose contact information is provided in the Federal Register Notice initiating a particular proceeding.

For administrative or procedural questions, please contact the Hearing Clerk supporting the Hearing Officer, whose contact information is provided in the Federal Register Notice initiating a particular proceeding.

If you are experiencing technical problems with the BPA Secure Website, such as timing out or browser compatibility issues, please send an email to webapplications@bpa.gov.
BECOMING A PARTY TO A BONNEVILLE PROCEEDING

Any entity or person intending to become a party to a Bonneville proceeding must file a petition to intervene via Bonneville’s Secure Website, which requires:

1) a filer’s account;
2) access for that account to the proceeding in question;
3) a filing number; and
4) submission of the petition to intervene.

New Accounts

1) Create an account by following the steps on pages 6-7. Included in the registration form is a request for access to a proceeding, which fulfills the second requirement above. If your party has not previously participated in a Bonneville proceeding, the Rate Hearing Coordinator will contact you to set up your party’s two-letter code.

2) Create a filing number. For an explanation of Bonneville’s filing number system, see pages 11-12 and Appendix A. To create a filing number for a petition to intervene, log in to the proceeding and select Generate a Filing Number under the Filings menu. Select the option for an original document, then choose Official Posting under the Upload Code and Party Status: Letters and Documentation under the Designation Code. The process for generating filing numbers is shown in more detail on pages 14-16. The generated filing code must be displayed in the footer of the petition.

3) To submit the petition to intervene, log in to the proceeding and select Submit Filing under the Filings menu. Select the upload code generated in the previous step, fill out the submission form, and upload the document. Before uploading the petition, please ensure that it meets the format and content requirements set forth in the Rules of Procedure §§ 1010.6 and 1010.11. The process for submitting documents via the Secure Website is shown in more detail on pages 16-18.

4) To participate in additional proceedings, follow the steps for existing accounts below.

Existing Accounts

1) Request access to the new proceeding using your existing account email. The steps to request access to a new proceeding are shown on page 8.

2) Create a filing number (see pages 14-16) by logging into the proceeding and choosing the Official Posting Upload Code and Party Status: Letters and Documentation Designation Code. The generated filing code must be displayed in the footer of the petition.

3) Submit your petition to intervene. Ensure that it meets the format and content requirements set forth in the revised Rules of Procedure §§ 1010.6 and 1010.11.
SECURE LOG IN AND ELECTRONIC SUBMISSION

The Electronic Signature

Each account representing an Official Party to a proceeding will be assigned a password to access the Secure Website and validate the Party's identity. Once a Party has access to the system, documents may be electronically submitted into the proceeding. Consistent with a traditional handwritten signature on a paper document, an Electronic Signature is a method to sign an electronic message (Government Paperwork Elimination Act (GPEA), P. L. 105-277, Title XVII, §1709(1)). A document is electronically signed by the person whose name is on the signature block of a pleading pursuant to Rules of Procedure § 1010.11(b). The name in the pleading, the password, and clicking Submit, together, are considered the Party's Electronic Signature.

The Electronic Signature represents the Party's authorization to submit documents, including Exhibits, Data Requests, Data Responses, Motions, and any other Filings into the proceeding. Similar to when documents are submitted in paper form, documents submitted using the Secure Website are not considered as evidence unless admitted into evidence by the Hearing Officer. Data requests and responses are not part of the record or evidence unless moved into the record and evidence by an Official Party and admitted by the Hearing Officer.

Because the password authenticates the source of an electronic submission, it is vitally important for each Party to protect the privacy of their password so that unauthorized persons do not access the Secure Website or submit documents using the Party's account.

Parties should not include sensitive information in any document submitted through the Secure Website. Information in the document, including sensitive information, may be accessible to the public over the Internet. Refer to page 2 for filing documents under seal or for alternative filing options.

Use of Cookies

Cookies are short text files placed on the computer's hard drive by a web site, usually without the user's knowledge. Cookies are not an executable program and do not adversely impact the computer. The Secure Website uses a session cookie to enable a Party to make filings electronically. A session cookie operates only for the duration of the browser session; when the user shuts down the browser, the cookie is released and disappears.

A Party will not be able to submit documents electronically if their browser is set to prevent any cookie from being sent to its system.
GETTING STARTED

Web Site Location

To access the Secure Website, enter the following URL in the Address bar of your browser:

https://www.bpa.gov/secure/ratecase

The Bonneville Secure Website screen displays:

From this screen you can view documents associated with various active and inactive proceedings. To access “read-only” copies of the documents associated with a particular proceeding, select the View Documents link that is located to the right of the case title.

A screen similar to this one will display, where you can filter for documents by proceeding name and Upload Code.
CREATE A USER ACCOUNT

For full access to the Secure Website, you must create a user account.

1) At the Rate Case Home page, click the Request Access link in the left navigation bar. The following screen displays:

2) Click the Create New Account button. The following screen displays:

3) Fill in the fields and click the Next button. The following displays:
4) Fill in the fields. Select the active proceeding to which you are requesting access from the Requested Case drop-down list. Then, click the Next button. The following screen appears:

5) Fill in the fields (the phone number must be in the format XXX-XXX-XXXX) and select Next. A summary screen displays showing the information you have provided:

6) Click the Finish button. The following screen displays:

   Account Created!
   You will be contacted via email when your request has been evaluated by the Rate Clerk.

   Return to the Rate Case Home
REQUEST ACCESS TO A PROCEEDING

To request access to a proceeding if you already have a user account:

1) At the Secure Website Home page, click on the Request Access link in the left navigation bar. The following screen displays:

2) Click the Request Case Access button. The following screen displays:

3) Enter the email address associated with your existing account in the Email field.

4) Select the active proceeding to which you want access from the Requested Case drop-down list and click Finish. The following screen displays:

Account Updated!
You will be contacted via email when your request has been evaluated by the Rate Clerk.

Return to the Rate Case Home
LOGGING IN

Enter the secure log in area by clicking on the Log In… link located to the far right of the active proceeding title on the home page.

<td>Log In</td>
</tr>
</tbody>
</table>

Under the Log In window, enter your email address and password then click the Log In button.

After you log in, the Change Party screen displays if you are a member of more than one Official Party and/or Joint Party. From here, select the Party you wish to log in under. For this example, we will choose BPA by clicking on the word Select next to the BPA Party Code.
The Secure Filings Home screen displays your name and the selected Party name in the upper right corner of the screen.

Log In Difficulties

If you experience problems logging in (see below), or you feel that you do not have the permissions you need, contact the Rate Hearing Coordinator (refer to “Contacts”, page 2).

Log Out

To logout of the Secure Website, click on the Log out link located at the top right of the screen. You will be returned to the main login screen. Or, you can close Internet Explorer to exit the BPA Secure Website.

You can only be logged into one proceeding at a time. If you are participating in multiple contemporaneous proceedings, you need to log out of one proceeding in order to log into a different one using the steps above.
Returning to the Secure Filings Home Page

To return to the Secure Filings Home page from any secure screen, do one of the following:

**Note:** Remember that the Rate Case Home link takes you to the primary home page of the entire BPA Secure Website.

Click on the Secure Filings Home link in the left navigation bar.

Printing with Secure Website

To print documents from the Secure Website, open the document. Then, go to File on the toolbar and select Print (Ctrl+P).

The Secure Website also allows you to print screen views. Display the desired screen and select Print (Ctrl+P) on the toolbar.
READING DOCUMENT AND DATA REQUEST CODES

Filing Codes

The Secure Website uses Filing Codes established through an Order by the Hearing Officer for all Filings, Data Requests, Data Responses and Orders.

Contact the Hearing Clerk for all questions concerning Filing Codes (refer to “Contacts,” page 2).

Single Party Submissions

Filing Codes for documents are structured as follows:

```
EXAMPLE:     BP - 12 - E - PS - 01
```

Indicates type and year of the proceeding    Document Type    Party Code    Document Sequence Number

The above Filing Code shows that:
(a) The document is for the 2012 Joint Power and Transmission Rate Proceeding (BP-12).
(b) The type of document being submitted is an Exhibit (E).
(c) The party submitting the Exhibit is Power Services (PS).
(d) This is the first Exhibit submitted by PS (01).

The Filing Code for a Motion would read: **BP - 12 - M - PS - 01**.

The Filing Code for an Order would read: **BP - 12 - HOO - 01**.
(Non-Party filings such as Hearing Officer Orders have no Party code.)

**Note:** Document sequence numbers for all Filings, Orders, Data Requests and Data Responses are automatically generated by the Secure Website. Please refer to **Generate Filing Number** on page 14.

Joint Party Submissions

If a Filing is submitted jointly, the Filing Code will show the Code **JP** indicating Joint Party. See the procedural rule regarding joint submissions.

```
EXAMPLE:     BP - 12 - E – JP01 - 01
```

Indicates a Joint Party submission.
Filings with Multiple Volumes

If a Filing has multiple volumes, a designation of “V01”, “V02”, “V03”, and so forth, will follow the document sequence number.

**EXAMPLE:** BP - 12 - E - BPA - 04 - V02

Indicates this is the second volume of the fourth exhibit submitted.

Errata Submissions

Errata, which are generally submitted separately from the original Filing, will have a designation of “E01,” “E02,” and so forth that will follow the document sequence number.

**EXAMPLE:** BP - 12 - E - BPA - 04 - E01

Indicates this is the first erratum of the fourth exhibit submitted.

Data Request and Response Codes

Data Request and Data Response Codes are automatically generated by the Secure Website according to the following structure:

**EXAMPLE:** PS – TS - 001

The above Code for a data request shows that:

(a) The Requesting Party is PS.

(b) The request is directed to the Responding Party TS.

(c) This is the first consecutive request/response sequence number (001) submitted by PS to TS.

**Note:** Although the Data Response Code is always the same as the Data Request Code, email notifications clearly indicate whether the email is a Data Request or a Data Response. All parties have access to all requests and responses.

FILINGS

Secure Filings Home Menu

Upon log in, the Secure Filings Home menu appears as shown on the left of the screenshot below. From this location you can access screens to perform all filing and discovery activities.

View Filings

To view Filings, do the following:

1) Click on the Filings link (not the plus (+) symbol next to it) in the left navigation bar. The following screen displays:

Steps To Submit A New Filing:

1. **Generate a Filing Number** (Filing --> Generate a Number)
2. Paste the generated number into your document in the appropriate locations (cover page, footers, headers, etc.)
3. **Upload the filing** (Filing --> Submit Initial Filing)
4. Filing information is saved, and a link is sent to all parties

Steps To Submit Subsequent Volumes, Conformed Versions, Errata, Corrections To Errata:

1. **Generate a Secondary Filing Number** (Filing --> View My Filings) Click the 'Submit Secondary Filing' link next to the desired original document
2. Paste the generated number into your document in the appropriate locations (cover page, footers, headers, etc.)
3. **Submit Secondary Filings** (Filing --> Submit Secondary Filings)
4. Select the original filing's upload code from the drop-down. If you are submitting a correction to an errata, select that errata's filing code. For all others, select the original filing code
5. Enter volume, errata, correction to errata information, or mark the filing as a conformed copy
6. Upload the filing by clicking the 'Submit' button at the bottom of the Submit Secondary Filings page
7. Filing information is saved, and a link is sent to all Parties
2) Click on the View All Filings link at the top middle of the screen.

Generate Filing Number

To generate a Filing Number for an original filing:

1) Log In to the proceeding for which you want to generate a Filing Number.

2) The Change Party screen displays instead if you are representing multiple parties. In that case, click the Select link next to the name of the Party that is filing the document. For this example, we will select BPA.

3) Expand the Filings heading in the navigation bar on the left by clicking on the plus (+) symbol.

4) Click the Generate a Filing Number link. The following screen displays:

Generate A Filing Number (Step 1)

- The document I am filing is an original document, and
- It is a single-volume filing, or the first volume in a multiple-volume filing.

If both of the above are true click the button below:

Continue...

- The document I am filing is an errata to an existing filing, or
- The document is a conformed copy of an original, or
- The document is a correction to an existing errata, or
- The document is a second or higher volume in a multi-volume filing, or
- The document is an attachment to an existing filing, or
- The document is an appendix to an existing filing.

If any of the above are true click the button below:

</tr>
</tbody>
</table>
8) If this is the first volume in a multi-volume Filing, click in the box next to Volume. If there are no volumes with the Filing, leave the box blank.

9) Click the Get My Filing Number button. The Filing number displays as follows:

The next available filing number for your party is:

**TRC-01-E-BPA-2**

Copy and paste this number into the footer of your document. This number has been reserved for your Party in the Secure Website system and will need to be included on each page of the document in order to be properly filed. When you are ready to file the document, select Filings/Submit Filing in the left navigation bar, then select this number from the Select Upload Code drop-down list.

**Submitting a Filing Document**

To submit a Filing Document:

1) Log In to the proceeding for which you want to submit a Filing Document.

2) If you represent multiple parties, the Change Party screen displays. File a document on behalf of a specific Party by clicking the Select link next to that Party’s Code. For this example, we will select **BPA**.

3) Expand the Filings heading in the left navigation bar by clicking on the plus (+) symbol.

4) Click the Submit Filing link. The following screen displays:

**Submit Filing**

Select the upload code of the document you wish to file from the list of codes reserved for your party below:

Reserved Upload Codes: [Select Upload Code to File]
5) Select the Filing Number reserved for your filing from the drop-down list (this is the number you generated in the Generate Filing Number steps above). A screen similar to the following displays:

If all the **required** information has been entered in the above form, when you click the button below your information will be electronically signed and submitted on your behalf to all official parties.

**Note:** The amount of time required for the web server to process your submittal will depend on the size of any upload file and the speed of your internet connection.

[Click to Electronically Sign and File]

6) Fill in the fields.

**Note:** Fields with an asterisk (*) next to them are required.

7) Click the **Browse** button and select the saved document you want to submit.

8) Select the file and click **Open**.
9) Click the **Click to Electronically Sign and File** button. The following screen displays:

An email similar to the following is sent to you and the address specified in the **Contact Email** field:

After you submit the filing, you are returned to the screen in the previous step. If you have created multiple filing numbers, you can select a different filing number from the drop-down list and submit a different document under that number by repeating Steps 6 through 9.
Generate Secondary Filing Number

Use this procedure to generate a Secondary Filing Number if one of the following is true.

The document is:

- An erratum to an existing Filing.
- A conformed copy of an original.
- A correction to an existing erratum.
- A second or higher volume in a multi-volume Filing.
- An attachment to an existing Filing.
- An appendix to an existing Filing.

To generate a Secondary Filing Number:

1) Log In to the Rate Case for which you want to generate a Secondary Filing Number.

2) If you represent multiple parties, the Change Party screen displays. Select the Party for which you want to generate a Filing Number by clicking the Select link next to the Party Name.

3) Expand the Filings heading in the left navigation bar by clicking on the plus (+) symbol.

Fill in the fields, and click the **Submit Request** button to send the data request.

**Note:** The data request is automatically directed to the Official Party that submitted the Exhibit.

**After you submit a data request, the Secure Website will:**

(a) Assign a Data Request Code to the request.

(b) Return you to the Home page and notify you that the request has been submitted:  

**Thank you. Your request was submitted to all official parties.**

(c) Email the request to all Official Parties and any alternate contacts.

**Note:** If you receive a time out or other error message when submitting a data request, please do not refresh the page or click the back button to submit the request again, as this can lead to multiple identical requests. Instead, please check the list of data requests first to see if your data request was successfully submitted.
Responding to a Data Request

Although all Parties are notified about and can view every Data Request, only the Party to which the request is directed should submit a response. This should be the same Party that submitted the Exhibit referred to in the request.

To enter and submit a response to a Data Request:
1) Expand the **Discovery** heading in the left navigation bar by clicking on the plus (+) symbol.
2) Click the **Respond to a Data Request** link. The following screen displays:

   **Respond To A Data Request**

   - Select Request: 
   - Select Request drop-down list

   **Select preferred method of response submission:**
   - Upload response file
   - Complete online response form
