II. NATURE OF PROCEEDING

BPA has commenced a proceeding pursuant to Section 7(i) of the Northwest Power Act, 16 U.S.C. § 839e(i), to address proposed power and transmission rate adjustments. In the BP-22 rate proceeding, BPA proposes to revise rates for power, transmission, and certain control area and ancillary services for FY 2022-2023. BPA indicates that these rates will become effective on October 1, 2021.

III. INTEREST OF POWEREX AND PETITION TO INTERVENE

Powerex is a corporation organized under the Business Corporations Act of British Columbia, with its principal place of business at Vancouver, British Columbia, Canada. As the wholly-owned marketing subsidiary of the British Columbia Hydro and Power Authority ("BC Hydro"), a provincial Crown Corporation owned by the Government of British Columbia, Powerex is an instrumentality of a foreign state under
the Foreign Sovereign Immunities Act.\textsuperscript{1} Powerex sells power at wholesale in the United States, pursuant to market-based rate authority originally granted by the Federal Energy Regulatory Commission on September 24, 1997.\textsuperscript{2}

Powerex sells power from a portfolio of resources, including the Canadian Entitlement resources made available under the Columbia River Treaty, BC Hydro system resources, and various other power resources acquired from other sellers within the United States and Canada. Powerex is a transmission customer of BPA and takes service under BPA's Open Access Transmission Tariff, contracting with BPA for both firm and non-firm transmission service.

As a large transmission customer of BPA, Powerex has a direct and vital interest in the outcome of this proceeding, and this interest is not represented by any other customer of BPA. Any decision by the Administrator in Docket BP-22 could affect the rates for transmission service that BPA provides to Powerex. Therefore, Powerex respectfully requests that the Hearing Officer grant Powerex leave to intervene as a party to this rate proceeding.

Respectfully submitted,
