

NRU's utility members have a substantial interest in this docket because they pay power and transmission rates that are subject to the Financial Reserves Policy Surcharge (FRP Surcharge) at issue in this proceeding. The interests of NRU members are thus directly affected by the outcome of this docket, and no other party may adequately represent NRU's interests.

In addition, Section 1010.6(b) of the BPA Rules of Procedure provide that entities that directly purchase power or transmission services from BPA and the trade organization that represent such customers are to be granted intervention in the proceeding. As NRU is a non-profit organization specifically organized to represent BPA customers in all matters related to all power supply, transmission, contract, and rate matters respecting to BPA, NRU should be granted intervention in the BP-20E proceeding.

2. NRU supports the proposed suspension of the Power and Transmission FRP Surcharge for the remainder of the BP-20 rate period as described in the Federal Register Notice.

3. Service of documents in this proceeding should be made upon the following individuals at the following addresses:
