BONNEVILLE POWER ADMINISTRATION**

2025 Terms and Conditions Tariff Proceeding

BPA Docket No. TC-25

NORTHWEST & INTERMOUNTAIN
POWER PRODUCERS COALITION
PETITION TO INTERVENE

Pursuant to the notice appearing in the Federal Register Vol. 86, No. 76744 on November 7, 2023 and Rule 1010.6 of the Bonneville Power Administration’s (“BPA’s”) Rules of Procedure (September 12, 2018), the Northwest & Intermountain Power Producers Coalition (“NIPPC”) respectfully petitions to intervene as a party in this proceeding. NIPPC participated extensively in the informal meetings and workshops that preceded the opening of this docket, as NIPPC has significant interests in the proposed modifications to the non-rate terms and conditions of BPA’s generally applicable open access transmission tariff. In support of this request, NIPPC states as follows:

I. PETITION TO INTERVENE IN TC-25

NIPPC is a not-for-profit trade association that advocates for competition in the power sector. NIPPC’s members include independent power producers who develop and operate power plants, power marketers, and independent transmission companies. NIPPC members have collectively invested billions of dollars in existing generation resources in the United States and have substantial operating assets in the Northwest along with renewable and thermal projects in advanced stages of development, many of which are tied to or rely on BPA’s transmission system for access to power markets.

Under BPA’s rules, NIPPC has the right to intervene because “[e]ntities that directly purchase power or transmission services under Bonneville’s rate schedules, or trade organizations representing those entities, will be granted intervention.”¹¹ In addition, NIPPC’s intervention in this proceeding is in the public interest. NIPPC’s interests will not be adequately represented by any other party. Therefore, NIPPC respectfully requests that this petition to intervene be granted.

II. COMMUNICATIONS

Communication in connection with this filing should be addressed to:

Spencer Gray
